Windmills On Parade Call for Artists

As part of the 2nd Annual Harvest Windmill Festival, Evansville Community Partnership, Inc. is accepting registrations until June 15th from artists who wish to participate in a downtown art project called "Windmills on Parade". The Evansville Main Street business district will be lined with original art on a windmill structure provided by Dave's ACE Hardware.

This project celebrates Evansville's history of innovative windmill technology through Baker Manufacturing, recognizes our culturally rich artist community as well as Evansville's forward thinking perspective on energy initiatives. Windmills on Parade will help create a walk-able downtown, generating interest in visiting and shopping in our Main Street area.

The artists' windmills will be installed between July 1st and August 1st and remain on display until Sunday October 4th. The Windmills on Parade exhibit will end with a grand finale auction at the Harvest Windmill Festival. Artists receive 50% of the auction proceeds and 50% will go to help fund the Harvest Windmill Festival. There is a \$100.00 registration fee to artists which includes the required 8 ft galvanized steel standard form windmill. Artists may manipulate the standard form windmill in their own creative way. Windmills on Parade artists are welcome to procure sponsors to cover any of their costs.

We invite all artists to be part of this innovative energizing project and be part of creating a positive community culture in Evansville! Call Jean Wyse at 608-882-6970 or visit www.evansville-wi.net for registration details.
